

Mobile App

You use apps for social media, shopping, checking the weather, and playing games. Now you can use an app to manage your health accounts. HSA Bank Mobile is a secure app that makes managing your health accounts easy with real-time access and intuitive navigation to all your important account information on the go.

Once you have set up your username and password within the Member Website, you'll be ready to use the Mobile App. Use your iOS (iPhone, iPod Touch, iPad) or Android-powered device to:

- Check health account balances.
- View account activity and sign up to receive alerts via text message (you'll need to select text notifications within the Member Website). Message and data rates may apply from your wireless carrier.
- View transaction details.
- File new claims with receipt images.
- Enter a new expense into an expense tracker.
- Save and store receipts using your device's camera.
- Access customer service information to reach us when you're on the go.

HSA Bank Mobile is a free download from the app store. However, you should check with your wireless provider for any associated fees for accessing the internet from your device.
