

**CANCELLATION OF SCHEDULED
EXTRA-CURRICULAR AND INTERSCHOLASTIC ACTIVITIES**

In the event that the District must close schools due to inclement weather, all extra-curricular and interscholastic activities shall be cancelled when the forecast calls for unsafe conditions at the time of the event or practice. If the weather, that caused the cancellation of school, is going to persist through the time period of the extra-curricular activity, the activity must also be cancelled. This includes team practices, after school activities, and all evening events. Cancelled activities and events will be re-scheduled by administrative arrangement.

In the event that interscholastic competition with another school is insisted upon by the host school, administrative confirmation of cancellation must take place with the other school's administration. If administration deems road conditions or weather too dangerous to travel, the event will be cancelled, even if the host school is insistent on continuing with the event.
