

ASSESSMENT OF DISTRICT GOALS

One of the major functions of the Board of Education is to work with the District Administrator to establish the goals by which the District can accomplish its mission and to provide the resources necessary for their accomplishment. Because of the importance the Board places on accomplishing goals, it has established the following policy for effective assessment of the District's progress toward their realization.

In conjunction with its annual evaluation of the District Administrator, the Board shall also provide the time for both the Board and the District's administrative team to assess the progress of the District, during the previous year, toward the achievement of current goals. Both the District Administrator's evaluation and the progress-assessment of goals shall take place during the months of December and January.

The Board will set up a special Board of Education meeting with the District Administrator and administrative team to review and revise the District's strategic planning process and to evaluate and identify opportunities for improvement of the District's operations.
