

FOOD SERVICE MANAGEMENT

The food service program is an integral part of the total education program, and as such shall be governed by the same principles and type of control as any other division of the District.

The District shall provide meals through participation in the National School Lunch Program (NSLP). The food service director shall enter into an agreement, on behalf of the District, with the Department of Public Instruction and the federal government for participation in such child nutrition programs.

As required for participation in the NSLP, the District agrees to the following:

- That a school meal meeting federal regulations be made available for all students.
- That free and reduced price meals be offered to eligible students who apply and meet the federal income guideline.

The Food Service Program will operate an independent school nutrition program, coordinated by the food service director. The business manager will act as immediate supervisor of the food service director.

Food services programs shall be reviewed monthly by the food service director, and business manager. An annual report will be given each year to the entire Board.

The District may also participate in other food programs offered by the USDA and Department of Public Instruction.
