1.0 MEETING CALLED TO ORDER – 6:00 p.m.

2.0 LONG-RANGE FACILITY PLANNING

2.1 Committee Introductions

2.2 Ground Rules

The group determined ground rules for participants on the Long Range Planning Committee and established ground rules for those who attend meeting; but are not on the committee.

2.3 Determining Our Needs

The committee split into groups of four and will outline where they see the district in five years.

We reviewed the work from last year's long-range planning committee. There did not appear to be anything that we could use.

Karen also stressed the need for systematic planning of our financial needs. This plan is in three parts: building needs, staff needs and curriculum needs. *What is the effect on the system when one is driving the other two?* An example being; when building needs take precedence over the two. This would negatively affect quality of education.

2.4 Developing the Committee's Mission

Karen then had the committee review the mission statement. We read the mission statement and discussed how long-range planning is tied into this. We then discussed what in the district is drawing us towards the mission statement and what is drawing us away. We then needed to develop an action plan to drive the mission.
