

## STUDENT MOTOR VEHICLE USE

Driving on school roadways and parking on school property is a courtesy extended to students and others by the Board. All students parking on school property will have the required parking sticker displayed on the lower left front windshield. The administration, obtaining suggestions from the local law enforcement agency, shall establish rules and regulations to assure traffic safety on school property and the maximum protection of vehicles. However, the District shall assume no responsibility for damage to cars or for theft.

Regulations governing all traffic on school property shall include speed limits, stops, one-way lanes as needed, restriction of driving/parking to staff and authorized students and visitors, and special parking areas for staff, visitors, and students. Specific regulations are the responsibility of the principal. The regulations may provide a means for imposing a limitation on the number of students who may use the parking lot if parking space is at a premium. A parking fee will be assessed as approved by the Board. Permission to use motor vehicles during the school day is required for each occurrence or ongoing activity.

The school administration shall rescind permission for any student to drive or park on school property who drives unsafely or who does not observe the school's traffic or parking regulations.
