

FIRE DRILL PROCEDURES

One of the most serious moments in a school day is when the emergency horn is sounded. It is at this time when lives may be in serious danger due to fire or natural disaster. It is at this time that every student and every staff member must be absolutely alert, cooperative and obedient to prescribed evacuation procedures. Lives may be in danger and we must take every precaution to protect them.

Each month, during the school year, fire drills will be held in accordance with the procedures outlined in the Parkview School District Emergency Preparedness Plan.
