

## RELATIONS WITH PARENT ORGANIZATIONS

The Board encourages the formation of parent organizations interested in promoting the improvement of educational activities in individual schools or throughout the District.

The administration and employees of the District shall cooperate with such organizations in activities which would benefit the students in the various schools.

Parent organizations and the principal and/or teacher directly connected with the parent organization should communicate regularly to ensure that both parties are on the same page regarding the purpose of the parent organization and their support activities.

CROSS REF.: 840 - Public Gifts to the Schools

**APPROVED:** November 12, 1985
